

## Lesson Plan Template

Teacher: Benjarin Kaivalvatana

### Learning Objective

Aspect of grammar: Form, Meaning and Use.

The learner will learn how to use comma and period correctly. They will apply their knowledge by looking at sentences to insert punctuations in the right place.

### Materials

1. Punctuations instruction
2. Exercises
3. Pencil
4. Blank papers

### Activities

1. Get to know by asking personal information (major, interest, grammar perspective, strength and weaknesses) (5minutes)
2. Introduce the passages, focusing on punctuations, to see the importance of punctuations. (5minutes)
3. Explicitly teach punctuations. (10 minutes)
4. Have the learners look at sentences to insert the punctuations in the right place. If it is too easy, I will have them correct some writing by using the right punctuations. (5 minutes)
5. Review together and discuss the correction (5 minutes)

Homework: In any class that requires writing, use the right punctuations and bring it to me next time. We will look at each other paragraph.

### Assessment

Through the activities, the learner will show their comprehension about comma and period. The activity focus on using comma and period in appropriate places which I can informally assess their understanding.
